MEMBER VALUE

- » IPA Consulting Services are affordable. Partnerships with our consultants include a commitment to Indiana's philanthropic sector, allowing us to create a rate structure that makes this valuable expertise accessible and affordable for our members.
- » It can be difficult finding local, experienced professionals familiar with your needs. IPA has removed geographic barriers and gives you access to expert consultants no matter where you are located.
- » IPA has vetted professionals that are experienced working with philanthropic organizations. You don't have to search for and interview numerous consultants—IPA does that work for you.
- » IPA matches the best consultant to your foundation's unique needs and preferred work style.
- » It is possible to change or add consultants if different expertise is needed as the engagement evolves or to have IPA provide support from its core member services.

CONTACT US

If you're interested in exploring a project with us, IPA will talk with you about your needs, then develop a custom plan that fits your foundation, fund, or giving program. To start the conversation, contact Marie Beason at mbeason@inphilanthropy.org or by calling 317.630.5200 x115.
